

Kataleifos Interview Question 5

Kataleifos:

Just imagine that when Voulgaris first proposed this role to me, I thought that I couldn't play this role. I told him: I'll come to your office and try out the role in full so that you can see it, and if, after this rehearsal, you believe that I can play the role, then I'll do it. Otherwise you'd better find someone else. Finally, I tried it, he said all right, and that's how I played the role. This was a role going somewhat against what I had done before.
